

WPC FENCE

WEIFANG JINZITA METALWORKS CO., LTD.

PRODUCT PRESENTATION

WPC (Wood-Plastic Composite) Fence is a high-performance, low-maintenance alternative to traditional wood. It combines recycled wood fiber and plastic to create a durable material that resists rot, insects, and weathering. With the elegant look of wood but without the need for painting or staining, a WPC fence provides long-lasting beauty and security for any property, making it a smart and sustainable investment.
